

Safety Wands

Made from polycarbonate and reinforced DuPont. nylon making the Safety Wand impact resistant to -30' F

Completely water-proof & grease proof

3-mode switch - off, constant on or flashing, for a variety of uses

3-super bright LEDs making it as bright as a conventional flashlight (w/cone)

Using LEDs instead of filament bulbs gives you an unbreakable Light source for up to 200,000 hours

The ultra slim design makes the Safety Wand easy to store in pockets

Using 2-'C' batteries makes the Safety Wand Lighter in weight while getting five times the battery life compared to conventional flashlights which use 2-'D' batteries

Available in 3 colors: Red, Orange and Fluorescent Green/Yellow.

Orange (Shown)	Part # 3251-O	NSN: 6230-01-474-2954
Green/Yellow	Part # 3251-Y	NSN: 6230-01-474-2956
Red	Part # 3251-R	NSN: 6230-01-474-2959
